

INST327 – Assignment 1

Be sure you complete **both** questions.

Please consult the **rubric** and **instruction files** before starting the assignment, especially for prohibited keywords and structures. Usage of prohibited keywords or structures (IF, IFNULL(), etc.) will result in point deductions. These keywords and structures may be allowed in future assignments.

Q. 1) Simple SELECT and Aliases (50 points)

Use the **addresses** table in the **iSchool** database for this question. Write a query that replicates the result set shown below, matching all data, and format aspects, including column headers. Sort the **state** and **city** in descending order. Check the sample output for a pattern to use in a **WHERE** to control which rows are returned.
