

## INST 327 – Assignment 2 – Grading Rubric

Q.1. and Q.2. (50 points each)<sup>1</sup>

|                        |                                                                                             |          |
|------------------------|---------------------------------------------------------------------------------------------|----------|
| Format                 | One format issue <sup>2</sup>                                                               | -2       |
|                        | Two format issues                                                                           | -6       |
|                        | Three or four format issues                                                                 | -10      |
|                        | Five or more format issues                                                                  | -15      |
| Order                  | Row order slightly off (one or two rows affected)                                           | -2       |
|                        | Row order substantially off (three or more rows affected)                                   | -6       |
|                        | No ORDER BY clause, if required for the required result set                                 | -12      |
| Structure <sup>3</sup> | Slight error in query structure (with no result set consequences)                           | -4       |
|                        | Slight error in query structure (with slight result set consequences)                       | -8       |
|                        | Query unnecessarily complex <sup>4</sup>                                                    | -8       |
|                        | No UNION clause, if required for the required result set                                    | -12      |
|                        | Uses a keyword or structure that is disallowed for this question or assignment <sup>5</sup> | -15      |
|                        | Substantial error in query structure (with result set consequences)                         | -20      |
| Syntax                 | One syntax error preventing query to run; (when fixed, correct result set displayed)        | -8       |
|                        | Two syntax errors                                                                           | -16      |
|                        | Three syntax errors                                                                         | -20      |
|                        | Four or more syntax errors                                                                  | -30      |
| Other                  | Other problem (depending on severity) (each)                                                | -1 / -30 |

---

<sup>1</sup>Points lost might add up to more than available points, in which case the answer is graded as zero. (I.e., no negative score is possible on any answer.)

<sup>2</sup>Format issues include, but are not limited to: incorrect column order, incorrect column headings, missing or incomplete separating characters (commas, spaces) in concatenated strings, incorrect order among concatenated columns. The result set must look **exactly** like the sample output.

<sup>3</sup>It is possible to lose points due to multiple issues under this criterion. E.g., slight error in structure with no result set consequences, combined with use of disallowed keyword would lose  $4 + 15 = 19$  points.

<sup>4</sup>Including, but not limited to, unnecessary functions, unnecessary clauses, unnecessary filtering statements.

<sup>5</sup>Refer to the assignment instructions for a list of disallowed keywords and structures.
